UNIVERSITY OF LEEDS

Energy Return On Investment (EROI) Workshop

30th June 2017
1 Victoria Street,
London

Aim & Objectives

Aim:

To promote understanding of the implications of EROI for energy policy within government and the wider energy / economic policymaking community.

Objectives:

1. Raise awareness of the role (and thus importance) of energy and economic growth
2. Understand what net energy (EROI) is and the potential impact of low EROI values on the economy
3. Discuss the implications of EROI values for different energy sources on future UK energy policy and possible policy responses
4. Identify potential gaps in the EROI evidence base (for policy) that future research could address
